Dear John,

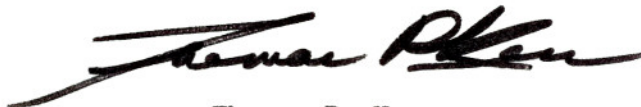

You did it again!

May I offer you at this early stage a return engagement on next year's panel? How are we to function without our star?

I know how busy your practice is and want to sincerely thank you for taking the time to participate in Orientation.

I have not forgotten our conversation concerning continuing education. As Hastings gets further involved in such programs, and it intends to do just that, I will try to see that the word gets out a little earlier. Thank you for your continuing interest.

Very truly yours,

Thomas R. Kerr  
Assistant Dean - Administration
